

# **FIBERBOND**

---

**Tired of cheap, flimsy throw-away filters.....**

Introducing the new **FIBERBOND** Dust Wizard™

**Quality Dustlok MERV 8 media**

**High wet strength beverage board  
frame**

**3 times the efficiency of fiberglass**

**Available in all sizes**

**Until now there was no heavy duty disposable filter. Our choices were limited to a thin, flimsy filter with a cardboard frame and diluted media or we could use a higher pressure drop pleated filter.**

Introducing the **FIBERBOND**

# **DUST WIZARD™**

**Finally a disposable filter containing the most imitated media made **DUSTLOK®****

**The ideal filter for schools, offices, and light commercial applications. **Dustlok®** media offers efficiencies equal to a pleated filter, high dust holding capacity and **SPOR-AX®** antimicrobial to effectively control mold, mildew, and fungus growth on the filter.**
