

Bag Filters

S-Flo

Advantages

- Synthetic media for high strength and removal of nuisance contaminants such as pollens, paper dust and atmospheric impurities
- Economical choice for commercial and industrial applications

Description: Multi-pocket high efficiency filters with synthetic media for commercial applications.

Typical applications: Built-up filter banks, rooftops, split systems, free-standing units, package systems and air handlers.

Efficiency: MERV 9, MERV 11, MERV 13, and MERV 14.

Media: Synthetic media in a uniform high loft media blanket with a permeable media support backing.

Recommended final pressure drop: 1.0" w.g. when operated at 500 fpm. System design may dictate alternative changeout point.

Temperature: Maximum continuous operating temperature of 158° F (70° C).

Ratings: ECI value of three stars, UL Class 2.

See Product Sheet 1205 for more details.
