

**Congratulations
to all service
technicians!**

CamHook

SAVE HEALTH – SAVE TIME – SAVE MONEY

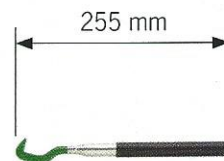

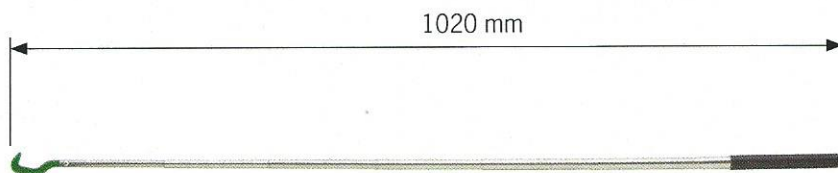

HOW CAN CAMFIL SUPPORT SERVICE TECHNICIANS?

Camfil has developed the **CamHook**, a smart aid to help you reach the filters furthest away – without having to crawl into the AHU.

- Extend the hook out of the telescopic handle then use the CamHook and its 1020mm reach and pull out the last filter.
- When you are finished simply push it together and put it in your pocket.

Fast and easy to use and also good for your personal work environment.

LONG ENOUGH TO REACH THE LAST FILTER

SMALL ENOUGH TO FIT IN YOUR POCKET
